

# Python for Linguists 2023

## Quiz for week 2

Name: \_\_\_\_\_

Assuming `name = 'Sue'` has been assigned, what do each of the following statements evaluate to?

```
len(name)
```

```
len(name) * 2
```

```
len(name * 2)
```

```
len('name') - 1
```

```
len('name' * 3)
```

```
len('name * 3')
```

```
len('name') == 2
```

```
name[1]
```

```
name[-1]
```

```
name + name[-1] * 4
```

```
name[::-1]
```

```
24 % 12
```

```
24 % 10
```
